Objective

As an ambitious computer engineering student, I am enthusiastic about securing a challenging internship opportunity to apply my classroom knowledge in a real-world setting. I am seeking to contribute my technical skills in hardware and software development, as well as my passion for innovation, while gaining hands-on experience in the field of computer engineering. My goal is to further develop my career in computer engineering and contribute to cutting-edge technologies in this dynamic industry.

Education

- **GITAM University** 2021-2025
Bachelor of technology
8.97
- **Nirmala junior college** 2019-2021
Board of intermediate education
968
- **IDS high school** 2019
Board of secondary education
10.0

Skills

- Programming in C
- Programming in Python
- Data structures in C
- Html, css

Projects

- **Sensor Guided Robotics**
Participated in a workshop organized in collaboration with SMART ARENA.Coordinated by the Department of Computer Science Engineering at GITAM School of Technology (GST).Gained hands-on experience in sensor-guided robotics.Acquired practical skills in sensor integration and robot control.
- **Mini project -Into new books**
We carried up a mini project on cloud computing and set up an AWS website for an online book store.Demonstrated proficiency in cloud infrastructure setup and web hosting.Highlights practical experience with Amazon Web Services (AWS) for web development.

Achievements & Awards

- In the robotics workshop in which I took part, our team achieved the top position, securing first place, and we were honored with a certificate as recognition of our accomplishment.
